

# LOAFR Github / Document Changes:

*History of all documents included in this project, including Github*

---

## LOAFR Github Commit History

*Starting after 4/11/2022*

<https://github.umn.edu/BISHO210/LOAFR> (Make sure to be logged into your UMN school account)

The screenshot shows the commit history of the BISHO210/LOAFR repository on GitHub. The interface is dark-themed. At the top, there's a navigation bar with links for Code, Issues, Pull requests, Projects, Wiki, Security, and Insights. Below this, a dropdown menu shows the 'main' branch. The commit history is filtered for 'Commits on May 1, 2022'. The list of commits includes:

- Fixed punctuation (Will Bishop committed 18 minutes ago)
- Added "<br/>" to fix formatting (Will Bishop committed 19 minutes ago)
- Merge branch 'main' of https://github.umn.edu/BISHO210/LOAFR (Will Bishop committed 21 minutes ago)
- Changed to Version 0.2 (Will Bishop committed 21 minutes ago)
- 0.2 (piet100 committed 23 minutes ago)
- Merge branch 'main' of https://github.umn.edu/BISHO210/LOAFR (Will Bishop committed 1 hour ago)
- Fixed spacing (Will Bishop committed 1 hour ago)
- removal of item (piet100 committed 1 hour ago)
- Updated README again (Will Bishop committed 1 hour ago)
- Updated README again (Will Bishop committed 1 hour ago)
- Edited README.md document (Will Bishop committed 1 hour ago)
- new .exe file (piet100 committed 1 hour ago)
- traceability (piet100 committed 3 hours ago)
- new exe made (piet100 committed 4 hours ago)
- adding groupbytest description (piet100 committed 4 hours ago)

Each commit entry includes a commit icon, the commit message, the author's name, the time since the commit, and a commit hash with a link to view the commit details.

Commits on Apr 30, 2022		
Finished Tests	Sebastian Nolette committed 6 hours ago	48586de
Worked on Tests	Sebastian Nolette committed 6 hours ago	3d09f88
Commits on Apr 29, 2022		
Changed how groupBy works	Wil Bishop committed yesterday	ed30dc7

## Design Document Change History

*Note: This document was cloned from our original LOAFR Design Document. It was cloned for P5 and updated for P5 only. That is why it only shows “Ashlyn” as the sole author. Items were updated / included for traceability purposes in the Design Document on 5/1/2022.*

### Items in Each Trello Card

*Title, full description, and activity for each action item we have completed up until 5/1/2022*

Trello Board: <https://trello.com/b/6LDoxvq8>

### Items inside ‘Product Backlog’

*Including descriptions and history*

**Full UI**  
in list Product Backlog(TODO)

Description Edit

Full functionality is accessible from a web based application interface  
Reference:  
SRS section 3.1  
Design template 3.1.2

Activity

Write a comment...

**Basic UI**  
in list Product Backlog(TODO)

Description Edit

Full functionality and user interaction is advisable from the command line

## P5 Test Execution Report History

← Today, 4:38 PM

100% Total: 2 edits

### Test Execution Report (LOAFR 0.42)

Each Test Function may have multiple internal test cases for a property of the class it is testing, should a single test case in the test function fail the entire function is counted as failing.

test\_LoafR.py:

Test Function	Purpose of Test Function	Date Last Run	# Internal test cases	Pass (P) or Fail(F)
Tests for class Search_Settings				
test_Default	To confirm that the default values of the class are set properly.	5/1/22	6	P
test_Constructor	To confirm that the constructor works.	5/1/22	6	P
